INDEX TO AUTHORS

JANUARY TO DECEMBER, 1957

ARTHUR, G. H.—Some Notes on the Quantities of Fœtal Fluids in Ruminants, With Special Reference to "Hydrops Amnii", 17.
Attree, A. C.—(Obituary), 223.

BERESFORD-JONES, W. P. —(See Oldham, J. N.).
Bianca, W.—The Effect of Repeated Short Exposures to Heat on the Volume and Hydration of the Blood of the Calf, 227.
Brooks, M. E. and Entessar, F.—Anomalous Clostridium Welchii Type B Strains Isolated in Iran, 506.
Brownlee, A.—Higher Nervous Activity in Domestic Cattle, 407.
Bywater, H. E.—Nematodirus, 450.

CAMPBELL, R. S. F.—Encephalitis in Canine Distemper, 143.
Carnaghan, R. B. A.—(See Markson, L. M.).
Chandler, R. L.—Observations on the Cerebrospiral Fluid in Some Cases of Tryponosomiasis in Cattle and Sheep, 482.
Chubb, L. G. and Long, P. L.—The Estimation of Prothrombin in Chicken Blood, 3.
Cooper, D. M. and Skulski, G.—Effects of Feeding Furazolidone to Fowls, 509.

DAVIS, M. Elizabeth.—Resistance to Antibiotics Found in Some Strains of Commonly Occurring Bacteria, 279.
Dawson, F. L. M.—Bovine Cystic Ovarian Disease: A Review of Recent Progress, 112.
Dunn, Diana Rowan, and White, E. G.—Studies on the Pig Lungworm, 308.

ENTESSAR, F.—(See Brooks, M.E.).

FLUCKIGER, Professor Dr. G.—Note on the Occurrence of Foot-and-Mouth Disease in Switzerland From a Belgian Infection in the Period May 14 to July 5, 1956, 7
Fraser, A. F.—The State of Submission in Cattle, 167.

GALE, J. F.—(See Tutt, J. B.).
George, N.—Some Observations on the Fœtal Circulation in the Camel, 219.
Gibson, T. E.—Clinical Tests of Piperazine Adipate as an Equine Anthelmintic, 90.
Gitter, M.—Hæmolytic *Bact Coli* in the "Bowel Œdema" Syndrome, I, II, 168, 212.
Glover, F. A.—(See Scott-Blair, G. W.).
Gordon, R. F. and Tucker, J. F.—The Treatment of Chronic Carriers of *Salmonella Pullorum* with Furazolidone, 99.
Grahame, T. and Morris, P. G. D.—Comparison of the Vascular Supply to the Virgin and Post-Gravid Uterus of the Pig, Ox and Sheep, 498.
Greatorex, J. C.—Observations on the Hæmatology of Calves and Various Breeds of Adult Dairy Cattle, I, 29, 65, II, 469.
HARTHOORN, A. M.—Infusion and Analeptic Therapy, I, II, 370, 424.
Harvey, D. G.—On the Routine Chemical Analysis of Small Volumes of Urine, I, 52.
Hathout, A. F.—(See Reda, Hussein).
Hawker, R. W. and Roberts, V. S.—Oxytocin in Lactating Cows and Goats, 459.
Hutt, F. B.—On Genetic Differences in Resistance of Fowls to Encephalomacia, 399.

JONES, O.—The Problem of the Tuberculous Monkey, 203.

KENDALL, S. B.—Some Factors Influencing Resistance to Histomoniasis in Turkeys, 435.

LARIN, N. M. and Wooldridge, W. R.—Critical Approach to Canine Virus Distemper, 191.
Lewin, S.—Planned Restriction of Radioactive Uptake by Animals, 380.
Lewis, E. F.—A Fixed-focus, Close Shot Camera Mounting for Veterinary Clinical Photography, 133.
Lewis, E. F. and Price, E. K.—The Use of Choline Chloride as a Lipotrophic Agent in the Treatment of Bovine Liver Dysfunction, 242.
Lloyd, M. K.—(See Gitter, M.).
Long, P. L.—(See Chubb, L. G.).

MCKAY, W. M.—Some Problems of Colonial Animal Husbandry, I, II, 268, 316.
Markson, L. M., Carnaghan, R. B. A. and Parr, W. H.—Studies on Encephalomalacia in Poultry, 303.
Merlen, R. H. A.—Notes on the Camel Derived from a Study of the Cunieform Script, 249.
Morcos, Zaki.—Prevalent Disease of Poultry in Egypt, 210.
Moustafa, E. M.—(See Reda, H.).

NEWSOME, J. and Robinson, D. L. H.—Sedatives and Anæsthetics for Baboons, 163.

OLDHAM, J. N. and Beresford-Jones, W. P. —*Trichinella Spiralis* in the Wild Red Fox in England, 34.

PARR, W. H.—(See Markson, L. M.).
Paterson, R. A.—New Aspects of Equine Lameness, 292.
Perek, M. and Rabinovitz, S.—The Value of Fæces Examinations in Detection of Carriers of Salmonellosis in Geese, 511.
Piercy, S. E. and Whitcomb, M. A.—Laboratory Trials With an Avianised Rinderpest Vaccine, 353.

GENERAL INDEX

JANUARY TO DECEMBER, 1957

ANOMALOUS Clostridium Welchii Type B Strains Isolated in Iran, 506.

BABOONS. Sedatives and Anæsthetics for, 163.
Bovine Cerical Mucus. More Early Pregnancy Tests from Studies of, 417.
Bovine Cystic Ovarian Disease—A Review of Recent Progress, 112.
Bovine Liver Dysfunction. The Use of Choline Chloride as a Lipotrophic Agent in the Treatment of, 242.
Bovine Pasteurellosis in Kenya. Some Observations on, I, II, 35, 71.
Bovine Pleuropneumonia Organism. Further Observations on the Bactericidal Action of Cattle Blood on the Contagious, 464.
CALF. The Effect of Repeated Short Exposures to Heat on the Volume and Hydration of the Blood of the, 227.
Calves and Various Breeds of Adult Dairy Cattle. Observations on the Hæmatology of, I, 29, 65, II, 469.
Camel Derived from a Study of the Cunieform Script. Notes on the, 249.
Camel. Some Observations on the Fœtal Circulation in the, 219.
Canine Distemper. Encephalitis in, 143.
Canine Virus Distemper. A Critical Approach to, 191.
Case of Bi-Lobed Left Adrenal with Absence of Medullary Tissue in a Sheep. A, 366.
Cattle and Sheep. Observations on the Cerebrospiral Fluid in Some Cases of Tryponosomiasis in, 482.

GENERAL INDEX

Continued

Cattle Blood on the Contagious Bovine Pleuropneumonia Organism. Further Observations on the Bactericidal Action of, 464.
Cattle. Higher Nervous Activity in Domestic, 407.
Cattle. The State of Submission in, 167.
Cerebro-Spinal Setariasis, 295.
Chicken Blood. The Estimation of Prothrombin in, 3.
Clinical Tests of Piperazine Adipate as an Equine Anthelmintic, 90.
Comparison in the Vascular Supply to the Virgin and Post Gravid Uterus of the Pigs, Ox and Sheep, 498.
Cows and Goats. Oxytocin in Lactating, 459.
Critical Approach to Canine Virus Distemper. A, 191.

DIFFERENTIAL Staining of Spermatozoa, 323.

EARLY Use of Anæsthesia in Veterinary Practice. The, 284.
Effects on Feeding Furazolidone to Fowls, 509.
Effect of Repeated Short Exposures to Heat on the Volume and Hydration of the Blood of the Calf. The, 227.
Effect of the Technique of Staining on Sperm Morphology, 13.
Encephalitis in Canine Distemper, 143.
Equine Anthelmintic. Clinical Tests of Piperazine Adipate as an, 90.
Equine Lameness. New Aspects of, 292.
Estimation of Prothrombin in Chicken Blood. The, 3.
Editorials—
Cambridge, 349.
Changes in Circumstances Call for New Methods, 141.
Common Sense Has its Value Still, 1.
Heavy Horses, 189.
Remember, 490.
Plan for the Future, 97.
The Annual B.V.A. Congress 1957 at Cambridge (Programme), 351.
The Balance of Life, 301.
There's but a Twinkling of a Star Between a Man of Peace and War, 489.
Thoughts on Autumn Past and Present, 405.
Thoughts on the Span of Life, 445.
Transport of Animals, 225.
Tuberculosis, 49.
William Harvey, 261.

FEW Rules in Dose Estimation for Young and Adult Animals. A, 255.
First Hundred Years. Pfizer, Ltd., 138.
Fixed-Focus, Close-Shot Camera Mounting for Veterinary Clinical Photography. A, 133.
Fowls. On Genetic Differences in Resistance of, to Encephalomacia, 339.
Fox. *Trichinella Spiralis* in the Wild Red, in England, 34.
Further Observations on the Bactercidal Action of Cattle Blood on the Contagious Bovine Pleuropneumonia Organism, 464.

HÆMATOLOGICAL Examination of the Blood of Normal Sheep. The, 251.
Hæmolytic *Bact. Coli* in the "Bowel Oldema" Syndrome, I, II, 168, 212.
Higher Nervous Activity in Domestic Cattle, 407.

INFUSION and Analeptic Therapy, I, II, 370, 424.
Intradermal Tests on Pigs With Antigens Prepared from Trichinella Spiralis and Ascario Lumbricoides, 447.

LABORATORY Trials With an Avianised Rinderpest Vaccine, 353.

MILK Fever, Post-Parturient Paralysis and Lactation Tetany, 263.
Monkey. The Problem of the Tuberculous, 203.
More Early Pregnancy Tests from Studies of Bovine Cervical Mucus, 417.
Mucus Antigens of *Escherichia Coli*, The, 171.
"Mulberry Heart" Disease in Pigs, 220.

NEMATODIRUS, 450.
New Aspects of Equine Lameness, 292.
News from Borneo, 440.
Note on the Occurrence of Foot-and-Mouth Disease in Switzerland from a Belgian Infection in the Period May 14 to July 5, 1956, 7.
Notes on the Camel Derived from a Study of the Cunieform Script, 249.

OBSERVATIONS on the Cerebrospiral Fluid in Some Cases of Tryponosomiasis in Cattle and Sheep, 482.
Observations on the Hæmatology of Calves and Various Breeds of Adult Dairy Cattle, I, 29, 65, II, 469.
On Genetic Differences in Resistance of Fowls to Encephalomacia, 399.
On the Routine Chemical Analysis of Small Volumes of Urine, I, 52.
Oxytocin in Lactating Cows and Goats, 495.
Obituary—
Attree, A. C., 223.
Scott, Dr. W., 487, 514.
Wilson, W. J., 96.
Wooldridge, Prof. G. H., 443, 483.

PASSAGE of Acetate Across the Placenta and its Uptake by the Fœtal Sheep. The, 328.
Pattern of the Ansa Spiralis of the Sheep Colon. The, 501.
Pig Lungworm. Studies on the, 308.
Pigs. "Mulberry Heart" Disease in, 220.
Pigs With Antigens Prepared from Trichinella Spiralis and Ascario Lumbricoides. Intradermal Tests on, 447.

XUM

GENERAL INDEX
